

Dear Participants

We welcome you to the First Asian Hypnosis congress and also our beautiful country Iran. For participating our tours, I invite you to check and choose from the tour package options we just updated in Touristic part of the congress website. You can choose only very brief programs like just staying 3 nights in beautiful Isfahan, visiting Isfahan and also beside, having short desert tour and then going to the congress in Mashhad. You also can book 10-day tours where you will see many of the cultural highlights of Iran in journey sometimes experienced like a dream.

There will **Pre-Congress Tours** before the congress, we named them **PR**.

There also will be **Post-Congress** Tours after the congress, we named them **PO**.

They both are included **7 days** tours and **10 days** which is longer and we call it **L** and short tour only **4 days** and we call it **S**. Long and Short tours (**L** and **S**), before congress will be **BRL** and **BRS** and after congress will be **POL** and **POS**.

Maybe later we will add **M-Tours** as well. What is this? Some participants maybe only can come to the congress directly but cannot stay before and after. So in **M-Tours** we can offer such colleagues some interesting sight-seeing in and around Mashhad.

If you have enough time you can combine pre-congress and post-congress tours and start to see as much as possible and be an expert for Iranian culture. In this case, you can choose among tours and select which one with how many days you prefer to have before and also after congress. Tours can be organized differently. We ask you to categorize yourself in one of the categories below.

First class Tour: To enjoy facilities of 5 star tours, and staying in best 4-5 star hotels during the tour. Often such hotel are in traditional oriental style. Rooms and whole hotel are very beautiful.

Second Class Tour: Facilities won't change too much but accommodation will be usually in a 3 star hotel. Also a good and clean hotel. But it also can be a more modern style hotel you also know from other countries in the world.

It all depends on you which kind of tour would like to experience, so you also can say you have the choice between:

- I am maybe only one time in my life in Iran and like to have the best possible experience in the most beautiful hotels
- Or you are saying: I am seeing the whole day beautiful things anyhow. And at night I am sleeping. And in the dark with closed eyes I cannot see the beauty of an oriental hotel anyhow – so a good middle-class hotel is better and I use my money for buying artwork or carpets.

Please also have a look on my webpage that you can inform yourself more about Iran trips and the tour programs which are being updated there and you can access Iran tours for 2019 in my webpage too, Also for women to have a bit imagination about how dressing in Iranian style.
